JUICES

Aura juice is inherently full of joy. Since 2000, Estonia's most beloved juice brand has been serving a variety of juicy moments and pure juice enjoyment to both young and old. Our goal is to offer the best juice experiences. Of course, the best can only be achieved by focusing on important values: a pure and high-quality product, and respect for the surrounding environment.

AURA APPLE JUICE

Apple is the most common fruit in the north and it has attracted us with its rosy cheeks since the beginning of time. The vitamin C in apples increases the body's resistance and helps it fight tiredness and stress. Aura apple juice is great first thing in the morning or as a source of energy any time of the day. You can make a refreshing alcohol-free cocktail by adding carbonated Aura cowberry or lemon water to Aura apple juice. The 100% juice content means that it is pure juice, i.e. juice to which no additives (incl. sugar) have been added.
